Press Release

What's The Real Solution To Inversions?

MARISOL GARIBAY | OCTOBER 4, 2016

In a new #Eakinomics video, American Action Forum (@AAF) President Douglas Holtz-Eakin explains the real solution that is needed to put a real end to inversions.

"The fundamental issue is tax reform," says Holtz-Eakin in the video. "We're going to be competitive and keep our headquarters as soon as we do tax reform that brings down the corporate rate and moves us closer to a 21st century tax system. Administrative action won't do it, contract bans won't do it, only tax reform will solve the inversion problem."

Holtz-Eakin also penned an oped this morning on the topic that can be read here.
