The American Action Forum (@AAF) and the Tax Foundation will host a discussion on the future of dynamic scoring in the tax and budget process. Dynamic scoring provides policymakers and stakeholders a more complete picture of the economic impact of tax and budget legislation. Senator Orrin Hatch will deliver keynote remarks. The event will also involve two AAF-formulated tax reform plans that will be scored by the Tax Foundation to illustrate the importance of dynamic scoring in measuring the relative merits of public policies.

Lunch will be provided.
