The Future of Clean Energy

FEBRUARY 26, 2019
3:00 PM

What does the future hold for clean energy sources in the United States, and how does innovation enhance our ability to make strides? Energy is getting cleaner, but policymakers face pressure to encourage more rapid progress. Join the American Action Forum for a panel discussion on clean energy policy and the federal government's role in encouraging energy production that is friendly to both consumers and the environment.
