Methane Fees For Petroleum & Natural Gas Systems

EWELINA CZAPLA | NOVEMBER 10, 2021

METHANE FEES FOR PETROLEUM & NATURAL GAS SYSTEMS

The Build Back Better Act has included various provisions aimed at addressing climate change, including a methane fee that would be in effect as of 2023. This fee would target natural gas and petroleum industries and charge a \$900-\$1,500 fee per ton of methane. The 2023 fees are shown below.

The Build Back Better Act includes various provisions aimed at addressing climate change, including a methane fee that would be in effect as of 2023. [Read more on the topic here.](#)
