1.8 Million Households At Risk of Losing ACA Premium Subsidies

AUGUST 19, 2015

The American Action Forum (@AAF) examined recent data from the Internal Revenue Service showing 40 percent of subsidized households under the Affordable Care Act could lose their subsidies, worth \$5.5 billion, due to complications with their 2014 tax filings. The analysis explains how and why the 1.8 million heads of households may have failed to submit the appropriate tax forms.
