AAF: Each DACA Worker Contributes an Average of \$109,000 to U.S. Economy Each Year

PATRICK HEFFLINGER | DECEMBER 20, 2017

The American Action Forum released research examining DACA recipients' contributions to the U.S. economy. The research finds that each DACA recipient in the United States contributes an average of \$109,000 a year to the GDP. Furthermore, it finds that if all employed DACA recipients were removed, U.S. GDP would shrink by \$42 billion.
