MEDIA ADVISORY: ACCOUNTABILITY & THE ESEA: WHAT'S BEST FOR STUDENTS?

OCTOBER 10, 2011

The American Action Forum and the American Enterprise Institute Host a Discussion on the Role of the Federal Government In Education

WASHINGTON- The American Action Forum and the American Enterprise Institute will host a discussion about accountability as it relates to the reauthorization of the Elementary and Secondary Education Act (ESEA) on Wednesday, October 12 from 12:00 p.m. – 1:30 p.m. at the Longworth House Office Building. Lunch will be provided.

The current debate over the future of No Child Left Behind has renewed discussion around the country over the role of the federal government in education. The panelists will address several of the critical questions coming out of the debate.

Panelists will discuss what the appropriate role for the federal government is when it comes to transparency, holding schools accountable, and crafting interventions. What can the federal government usefully do? What roles must states and school districts play? What responsibilities must lay with parents and how can policymakers help equip them with essential tools and information? And finally, how does Republican legislation to reform portions of NCLB compare with Obama's proposals?

What: The Health Insurance Coverage Effects of the Affordable Care Act

When: 12:00 p.m. – 1:30 p.m. on Wednesday, October 12, 2011

Where: Committee on House Administration, Longworth 1310
