

Press Release

New Podcast Episode: Wealth Tax Proposals

ALLISON EDWARDS | JANUARY 15, 2020

It's *The AAF Exchange* — your source for clear, data-driven insight into today's economic and domestic policy issues.

Our latest episode features AAF President Douglas Holtz-Eakin discussing the wealth tax proposals from presidential candidates Elizabeth Warren and Bernie Sanders. New research from the American Action Forum finds that such a tax would have a uniquely negative impact on workers' real wages – ultimately imposing an effective tax of 63 cents on workers for every dollar the government raises in revenue from the wealthy. Holtz-Eakin explains the results of his research and considers several objections to its findings. Read the research [here](#).

Future episodes will address other timely policy questions, including:

- What are the fiscal and economic implications of the presidential candidates' key policy proposals?
- What is the current state of trade policy, and what are the areas to watch in 2020?
- Is the Trump Administration's deregulatory push as successful as it claims?

Whether you're on your lunch break or commuting home, *The AAF Exchange* will keep you up to speed on today's most pressing policy issues.
