VIDEO NEWS RELEASE: A LAFFER MATTER: OPPORTUNITIES IN TAX REFORM RECAP

DECEMBER 20, 2011

The American Action Forum and the New Hampshire Institute of Politics recently hosted Arthur Laffer, a former economic adviser to President Ronald Reagan, to discuss opportunities in tax reform. Laffer addressed several issues that have contributed to our current fiscal problems including deficit spending, Obamacare, and the relationship between tax rates and revenue.

Laffer also made a compelling case for reforming the tax code and proposed several specific reforms to boost revenue while promoting economic growth.

Check out the American Action Forum's [YouTube channel](#) for clips from this and previous Forum events.
